

AQUAPANEL® Cement Board

AQUAPANEL® is an aggregated Portland cement board with coated glass fiber mesh embedded in back and front surfaces. Developed by Knauf USG Systems, **AQUAPANEL®** gives architects and contractors a proven alternative to brick and block construction in outdoor and indoor applications such as high quality exterior walls, facade renovation, bathrooms, shower surrounds, kitchens, swimming pools and laundries.

The **EasyEdge** strong, straight edge is wrapped with mesh, embedded into the cement for extra strength. The **EasyEdge** ensures easy joint treatment with filler and tape, resulting in a stronger structure.

Thickness (mm)	Width (mm)	Length (mm)	Weight (kg/m ²)	Boards/Pallet
